2. Medical and Travel Insurance Approx £250.00

We have a working relationship with SALT Insurance Services Ltd which specialise in providing cover for mission and aid workers. We have had excellent service from SALT at times of emergency and we now encourage trainees to use them for full medical and travel insurance for all Placements.

3. Placement: between £2000.00 and £3000.00 all inclusive

Placement costs vary according to variations from place to place in such things as flight costs and local food and accommodation prices.

We do not want you to send any money for your placement to World Horizons. We advise that you collect it in a separate personal account. We will be asking you how much you have towards your placement and we will expect you to have the full amount either in your bank or definitely pledged *before* you leave for your placement. A separate sheet with fundraising ideas is available.

Remember you will have almost a month off over Christmas and this gives you the opportunity to get a job to earn some money towards your placement if needed.
